

VARILIGHT Remote Control Handset

This handset is designed for use with VARILIGHT Remote Control Dimmers. It is an optional extra because the dimmers can be taught to respond to a spare button on any remote controller. This dedicated controller can operate up to 7 dimmers independently. Button 8 is the "Master Button" (see below).

Before use 2 x AA batteries must be fitted.

Batteries are not included.

1. Slide open the back cover in the direction of the arrow on the casing;
2. Place the batteries inside paying attention that you place them the right way round (see diagram inside controller);
3. Slide the cover back into place.

VARILIGHT Remote Control Dimmers are preset to respond to buttons 1 and 8 on this controller. You can teach a dimmer to respond to a different button from 2 to 7 (follow the instructions on the back of the leaflet accompanying the dimmer) but it will always respond to button 8. If you have several VARILIGHT Remote Control Dimmers, you can control them all simultaneously from button 8 on this controller. (Use this function to turn all the lights on or off after the individual dimmers are set to create a lighting "scene" that you want to repeat).

GUARANTEE

Important: In case of any defect return the dimmer to our service department. This guarantee is in addition to and not in derogation of the statutory rights of the purchaser and is offered so that you may have the benefit of our technical facilities. Should any defect occur in this unit within 12 months of its purchase we will replace or repair the defective unit free of charge provided that:-

- a) The unit has not been tampered with or taken apart.
- b) It is securely packed and safely returned to:-
**Service Department, Caryl's Lea, Faygate,
Horsham, West Sussex, RH12 4SJ (Tel. (01293)
851584)** together with a letter stating the guarantee registration number below, the date and place of purchase and the details of the fault.

GUARANTEE REGISTRATION NUMBER 802.
