

Click Ovia Hole Converter Plate For Inceptor Nano

Product Code: OVSP4120**
Stock Qty:

Product Description

Hole converter plate allows the Inceptor Nano (fixed only, not adjustable), be fitted into larger hole cut out spaces. Ideal for use when replacing older downlights that have a wider cut out and when re-plastering is not an option.

This product makes the Click Inceptor Nano series even more universal!

Key Features

- Allows Inceptor Nano to be placed into hole sizes of up to 120mm in diameter
- Diameter of the plate is 130mm
- Downlight bezel dimension is 83mm maximum, see drawing in data sheet for further information
- Available in a choice of 3 finishes please choose from the product options
- Please note this converter plate can only be used for the Fixed Inceptor Nano and isn't compatible with the Adjustable version
- Manufacturer: Ovia Lighting
