

LED Recessed Cabinet Light 12V 2W

**Product Code:** DLK-SS-*W
Stock Qty:

Product Description

Recessed LED light for kitchen under cabinets that is available in a choice of 3 colour temperatures. Requires an additional 12V LED driver that is available in dimmable and non dimmable options. Fitted with a diffused front cover that reduces dotting effects on kitchen worktops. The Leyton Lighting under cabinet lights offers a modern looking and bright lighting effect that is comparable to a 20W G4 halogen. The integrated LED is non replaceable and comes with a 3 year guarantee.

We have various LED drivers available which include non dimmable and dimmable versions available [here](#). Each light comes with 1.5 metres of cable and a small plug-in TOP6 connector that can be easily plugged into one of our TOP6 LED drivers. One 6 watt LED driver can power up to 3 of these 2 watt LED lights or we have bigger LED drivers also available.
